

So? What's next?

We have plenty of ideas to play with (and not enough time obviously!). What about you???? Start by making your very own version of the magic mirror then invent new features!

Communication
between
mirrors :
send messages
to your friends

I want to be...
Shows background
pictures around user's
head (astronaut,
princess...)

What time is it??
(learn to read time
on a dial)

What's your idea?

To get started :
